

A photograph of an industrial facility, likely an oil refinery or gas processing plant, silhouetted against a sunset sky. The sky transitions from a deep blue on the left to a bright orange and yellow on the right, where the sun is setting. Several tall, slender distillation columns and various processing units are visible. The foreground shows the dark, calm surface of a body of water.

OVERSEAS OIL & GAS

Who are we?

Overseas Oil & Gas LLC (OOG) was founded in 2010 with the support of the Government of the Sultanate of Oman to facilitate a number of cross country deals which required the flexibility of a private company that can move quickly to navigate the political complexities of the region and deliver major transactions expeditiously and efficiently.

OOG was founded by a very experienced team of professionals who have extensive experience in delivering mega energy and petrochemical projects. The team was complemented by a group of senior professionals covering various areas of expertise.

The projects we delivered were all executed in innovative ways which saved a lot of time and cost without compromising quality and safety. We bring a lot of commitment to delivering for the best interest of our stakeholders.

Our close relationships with potential investors and financiers means we can add a lot more value to the projects we execute.

Our Development Strategy

Our Development Strategy

OOG strategy is based on the following four pillars:

- Partner with local companies to address the market in the most economically, environmentally and socially responsible ways.
- Fast track execution of projects.
- Maximum value addition.
- Contribution to the local economy and community.

What we bring?

OOG brings a unique set of characteristics:

- Excellent working relationship with several governments and their entities in the MENA and Asia Pacific Region. These entities provide the necessary support to execute major projects in the most efficient way possible.
- Excellent relationship with a wide range of partners.
- A professional team with excellent track record.

Our Development Strategy

A partner with High Profile Organizations

OOG has partnered with a number of high profile organizations to provide sustainable and economically viable solutions.

At OOG we are committed to serving the communities in which we operate by adding value to their economics and safeguarding their interests.

In delivering our energy related projects, we provide the full spectrum of services including feedstock supply, EPC execution and operation and maintenance services. We add value every step of the way in an integrated manner which reduces project cost and time for the partner.

We train our people and those of our partners to deliver the highest quality services.

Safety is the number one concern

In energy and water projects, safety is the number one concern and we take this very seriously and we adhere to strict Health, Safety, Environmental and Quality standards.

Our Current Activities

We are active in:

Crude oil refined products trading

We source our products from the Middle East and Africa region and deliver mainly to Asian markets.

Renewable energies and water technologies

We have been active in the development of a number of energy related projects which include:

Project Development

We have been active in the development of a number of energy related projects.

Human Resources Development

Human Resources Development to produce the best leaders, operators and technicians.

Project Development Includes:

1. Refinery development in the Sultanate of Oman and Indonesia
2. Crude and refined products storage in the Far East
3. Upstream exploration and production in the Middle East and North Africa (MENA) region
4. Execution of marine infrastructure projects including FPSOs, Jack up Accommodation, DP2, Rescue vessel, Platform Supply Vessel, Firefighting vessels crew boats, etc.

Our Current & Past Projects

Projects that we have been involved in

Some of the senior managers of OOG have been involved in the development, project finance, EPC and commissioning of a number of projects in Oman. These include:

- Grass Root Refineries
- Grass Root Petrochemicals Projects
- Gas pipelines
- Crude Oil Trading
- Marine Project

The projects we delivered were all executed in innovative ways which saved a lot of time and cost without compromising quality and safety. We bring a lot of commitment to delivering for the best interest of our stakeholders. Our close relationships with potential investors and financiers means we can add a lot more value to the project we execute.

Value Added Every Step

We add value every step of the way in an integrated manner which reduces project cost and time for the partner.

Past Projects

<p>Grass Root Refineries</p>	<p>Grass Root Petrochemicals</p>
	
<p>Our team members developed the Sohar Refinery in Oman from the very beginning.</p>	<p>Our team developed the Oman Polypropylene project in Sohar from the very beginning.</p>
<p>Grass Root Aromatics (Paraxylene and Benzene) Project</p>	<p>Gas Pipelines</p>
	
<p>Our team developed the Oman Aromatics Project from the very beginning.</p>	<p>Our team helped the Government of Oman set up Oman Gas Co and participated in the construction of over 1000 km of gas pipeline across the Oman desert.</p>
